

**Exemption §106.149 Checklist
(Previously Standard Exemption 114)**

SAND AND GRAVEL PRODUCTION FACILITIES

The following checklist has been developed so the Texas Commission on Environmental Quality (TCEQ) can confirm that you meet exemption requirements. The questions are derived from §106.4, previously §116.211(a), and the exemption list. Please read all questions and check YES or NO (equivalent to True or False), or give specific information as applicable to your facility. If you do not meet all conditions of a specific exemption, you will not be allowed to operate the facility under exemption and you must apply for a construction permit as required under §116.110(a) prior to construction.

<u>PART</u>	<u>YES</u>	<u>NO</u>	<u>DESCRIPTION</u>
	_____	_____	Sand and gravel is obtained from deposits of sand and gravel created by natural disintegration of rock and stone
a)	_____	_____	Crushing or breaking operations are used
b)	_____	_____	Blasting is conducted to obtain the material
c)	_____	_____	Water sprays are installed at all screens and transfer points and used as necessary
d)	_____	_____	The area where the sand and gravel is obtained is sprinkled with water as necessary before the material is removed and transported for processing
e)	_____	_____	All in-plant roads shall be paved and cleaned or sprinkled with water and/or chemicals
f)	_____	_____	The plant is located at least 1/4-mile from any recreational area or residence or other structure not occupied or used solely by the owner of the facility or the owner of the property upon which the facility is located
g)	_____	_____	The plant production rate is 50 tons per hour or less
